## **Senate Bill 187: Comprehensive School Safety Plan Purpose**

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions

- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

A copy of the Comprehensive School Safety Plan is available for review at the Fair Oaks Ranch Community School office.

### **Assessment of School Safety**

The safety of the staff and students is a priority at Fair Oaks Ranch Community School. The following indicates elements that are going well at the site:

- \* Emergency drills are conducted at least once per month.
- \* Communication: each classroom has a walkie/talkie, staff communicates through an emergency app; office uses Parent Square for parent alerts in the event of an emergency
- \* All classroom windows have blinds to conceal classroom in the event of an emergency
- \* The front office has an efficient system for anyone picking up a student during the school day
- \* The lead custodian, administration and district office personnel conduct a monthly safety inspection and submit reports to the District Office
- \* Any safety issues are reported by staff to administration as they are noticed. Work orders are submitted and monitored for completion
- \* The campus is secure during school hours

The following items require improvement at the site:

- \* Examine and improve the ingress and egress procedures to ensure student safety
- \* Improve the safety and efficiency of the valet process
- \* Increase training for campus supervision on student behavior expectations
- \* Increase safety during emergency procedures within building locations; review procedures to secure doors in buildings
- \* Refine emergency evacuation, and student reunification procedures, in the event of an emergency
- \* Ensure parents understand the reunification procedures in the event of an emergency
- \* Increase emergency preparedness training for all personnel, including classified employees
- \* Review play ground expectations to increase safety during recess and lunch
- \* Train all staff in Bullying Prevention

### **Strategies and Programs to Provide and Maintain a High Level of Safety (EC 32281(a)1, items A-J)**

- All employees are trained on the scenarios addressed in the Comprehensive School Safety Plan
- The Sheriff's Department is called periodically to observe the traffic patterns during arrival and dismissal in order to ensure that drivers are obeying traffic laws
- In order to ensure that students engage in safe behavior, the school will continue to implement consistent expectations to all students and staff.
- Ongoing assessments of the campus are conducted by the lead custodian, cafeteria personnel, and other staff and reported to the principal
- The staff is trained each school year on child abuse reporting procedures; Stop the Bleed training and all other safety trainings.

## **Campus Security**

Per Board Policy and Administrative Regulation 3515, the following shall be included in the each of the schools Comprehensive School Safety Plans. These procedures shall include strategies and methods to:

1. Secure the campus perimeter and school facilities in order to prevent criminal activity. These strategies shall include an analysis of the building security system, lighting system, and campus fencing. Procedures to ensure unobstructed views and eliminate blind spots caused by doorways and landscaping shall also be considered. In addition, parking lot design may be studied, including methods to discourage through traffic.

The ingress and egress plan addressed in this safety plan addresses the security of the school campus perimeter. All schools are regularly assessed on a yearly basis regarding security system, lighting system, and campus fencing.

2. Secure buildings from outsiders and discourage trespassing. These procedures may include requiring visitor registration, requiring staff and student identification tags, and patrolling places used for congregating and loitering.

All visitors are required to register in the front office. The office is the only point of entry for the school site. The District utilizes the Raptor system to scan visitor identification and provide an identification sticker for each visitor.

3. Discourage vandalism and graffiti. These methods may include plans to immediately cover graffiti as well as campus beautification projects and shall also include students and the community in these projects.

In order to mitigate vandalism and graffiti, the District has staff walk the campus each morning in order to be able to quickly address any graffiti issues. The District also has security patrol each school site each night to mitigate the threat of vandalism.

4. Control access to keys and other school inventory.

Each school site checks keys out to employees who sign a form acknowledging responsibility for them.

5. Detect and intervene with school crime. These procedures may include the creation of a school watch program, an anonymous crime reporting system, analysis of school crime incidents, and collaboration and communication with local law enforcement agencies.

Each school site has a school resource officer assigned by the Los Angeles County Sheriff's Department. In addition, the District has security that patrols the campuses at night. Finally, staff and students are encouraged to report any concerns to the front office.

## **(A) Child Abuse Reporting Procedures (EC 35294.2 [a] [2]; PC 11166)**

## **(B) Disaster Procedures (EC 35295-35297; GC 8607 and 3100)**

### **Disaster Plan (See Appendix C-F)**

Disaster Plan:

GENERAL: The dismissal of students from the school shall be governed by the emergency procedures outlined in this procedure guide and consistent with the Initial Response System. However, this policy does not preclude the exercise of professional judgment by an administrator when the circumstances of the situation indicate dismissal to be in the best interest of the student.

Mass panic can be one of the greatest dangers to students. Staff members should remember that in times of stress, students will look for leadership to those who are normally in an authoritative position. REMAIN CALM, size up the situation and take action based on known facts and plans.

Each teacher MUST KEEP THE REGISTER OR ENROLLMENT SHEET OF PUPILS READILY AVAILABLE AT ALL TIMES. The teacher will remain with students until directed otherwise.

A well-prepared and tested plan for prompt and positive protection minimizes injuries and loss of life in a major disaster. In the absence of orders from the superintendent, each school principal is authorized and directed to implement plans as described herein or take such other action as may be necessary to save lives and mitigate the effects of disasters.

During an emergency period or condition created by disaster occurrence students may only be released to parent, guardian or other adult specified on the Emergency Data Card. THERE SHALL BE NO EXCEPTIONS TO THIS POLICY. Emergency Announcements will be provided on the following radio stations: KHTS AM 1220

#### **Public Agency Use of School Buildings for Emergency Shelters**

Procedures are in place to allow a public agency, including the American Red Cross, to use school buildings, grounds, and equipment for mass care and welfare shelters during disasters or other emergencies affecting the public health and welfare. The district or county office shall cooperate with the public agency in furnishing and maintaining the services as the district or county office may deem necessary to meet the needs of the community.

Information related to a complaint of sexual harassment shall be confidential to the extent possible, and individuals involved in the investigation of such a complaint shall not discuss related information outside the investigation process.

#### **(F) School-wide Dress Code Relating to Gang-Related Apparel (EC 35183)**

School dress codes are regularly reviewed by the School Site Council and/or School Safety Committee following these Board of Education policies:

##### **BP 5132: Dress and Grooming**

The Governing Board believes that appropriate dress and grooming contribute to a productive learning environment. The Board expects students to wear clothing that is suitable for the school activities in which they participate. Students shall not wear clothing that presents a health or safety hazard or causes a substantial disruption to the educational program.

District and school rules pertaining to student attire shall be included in student handbooks, may be posted in school offices and classrooms, and may be periodically reviewed with all students as necessary.

Students shall not be prohibited from dressing in a manner consistent with their gender identity or gender expression or with their religious or cultural observance.

In addition, the dress code shall not discriminate against students based on hair texture and protective hairstyles, including, but not limited to, braids, locks, and twists. (Education Code 212.1)

The principal or designee is authorized to enforce this policy and shall inform any student who does not reasonably conform to the dress code. The dress code shall not be enforced in a manner that discriminates against a particular viewpoint or results in a disproportionate application of the dress code based on students' gender, sexual orientation, race, ethnicity, household income, or body type or size.

School administrators, teachers, and other staff shall be notified of appropriate and equitable enforcement of the dress code.

When practical, students shall not be directed to correct a dress code violation during instructional time or in front of other students.

Repeated violations or refusal to comply with the district's dress code may result in disciplinary action.

##### **Gang-Related Apparel**

The principal, staff, and parents/guardians at a school may establish a reasonable dress code that prohibits students from wearing gang-related apparel when there is evidence of a gang presence that disrupts or threatens to disrupt the school's activities. Such a proposed dress code shall be presented to the Board, which shall approve the plan upon determining that it is necessary to protect the health and safety of the school environment. The dress code policy may be included in the school's comprehensive safety plan. (Education Code 35183)

When determining specific items of clothing that may be defined as gang apparel, the school shall ensure that the determination is free from bias based on race, ethnicity, national origin, immigration status, or other protected characteristics.

##### **Uniforms**

The Board may approve a school-initiated dress code requiring students at the school to wear a school uniform whenever the Board determines that such a dress code will promote student achievement, a positive school climate, and/or student safety.

The Superintendent or designee shall establish procedures whereby parents/guardians may choose to have their children exempted from the school uniform policy. Students shall not be penalized academically, otherwise discriminated against, or denied attendance to school if their parents/guardians so decide. (Education Code 35183)??The Superintendent or designee shall ensure that resources are identified to assist economically disadvantaged students in obtaining uniforms. (Education Code 35183)

#### AR 5132: Dress and Grooming

In cooperation with teachers, students, and parents/guardians, the principal or designee may establish school rules governing student dress and grooming which are consistent with law, Board policy, and administrative regulations. These school dress codes shall be regularly reviewed.

The following guidelines shall apply to all regular school activities:

1. Clothing, jewelry, and personal items shall be free of writing, pictures, or any other insignia which is vulgar, lewd, obscene, profane, or sexually suggestive or which promotes the use of alcohol, drugs, tobacco, or other illegal activity.
2. Appropriate shoes must be worn at all times. Sandals must have heel straps. Flip-flops or backless shoes or sandals are not acceptable.
3. Hats, caps, and other head coverings shall not be worn indoors.
4. Clothes shall be sufficient to conceal undergarments. See-through tops and bare abdomens are prohibited.

The dress code shall be modified as appropriate to accommodate a student's religious or cultural observance, health condition, or other circumstance deemed necessary by the principal or designee. In addition, the principal or designee may impose dress requirements to accommodate the needs of special school activities, physical education classes, athletic activities, and other extracurricular and cocurricular activities.

No grade of a student participating in a physical education class shall be adversely affected if the student does not wear standardized physical education apparel because of circumstances beyond the student's control. (Education Code 49066)

Students shall be allowed to wear sun-protective clothing, including but not limited to hats, for outdoor use during the school day. (Education Code 35183.5)

#### Gang-Related Apparel

At individual schools that have a dress code prohibiting gang-related apparel at school or school activities, the principal, staff, and parents/guardians participating in the development of the school safety plan shall define "gang-related apparel" and shall limit this definition to apparel that reasonably could be determined to threaten the health and safety of the school environment if it were worn or displayed on a school campus. (Education Code 32282)

Because gang-related symbols are constantly changing, definitions of gang-related apparel shall be reviewed at least once each semester and updated whenever related information is received. As necessary, the school shall collaborate with law enforcement agencies to update definitions of gang-related apparel.

#### Uniforms

In schools that require a schoolwide uniform, the principal, staff, and parents/guardians of the school shall jointly select the specific uniform to be worn. (Education Code 35183)

At least six months before a school uniform policy is implemented, the principal or designee shall notify parents/guardians of this policy. (Education Code 35183)

Parents/guardians shall also be informed of their right to have their child exempted.

The Superintendent or designee shall establish criteria for determining student eligibility for financial assistance when purchasing uniforms.

Students who participate in a nationally recognized youth organization shall be allowed to wear organization uniforms on days when the organization has a scheduled meeting. (Education Code 35183)

#### **(G) Procedure for Safe Ingress and Egress of Pupils, Parents, and Staff to and from School (EC 35294.2)**

##### **Regular School Day**

- The student day is from 8:45 am to 3:15 pm (2:15 pm early release Wednesday, and 12:45pm on minimum days) for all students in grades TK-6.
- Student supervision begins at 8:25 a.m.
- School office hours are 7:30 a.m. to 4:00 p.m.
- When student supervision begins at 8:25am, students line up at their designated grade level areas in the multi-purpose room (TK and Kindergarten), Kindergarten playground (1st and 2nd grade) and in the 500 quad (3rd-6th)
- Under no circumstances are students to leave to pick up friends, go to locations other than the school campus, or loiter outside campus gates.
- Students not participating in after school activities are to leave campus immediately by walking, taking the bus, or being picked up by an authorized person.
- Supervision of students not participating in after school activities ends at 3:15 p.m.

\* Students participating in before or after school programs need to go directly to their designated areas.

- Routines and procedures are established for the arrival and dismissal of students.
- All visitors must check in and sign in at the front office to enter the school property.
- All students will be dismissed by teachers at designated dismissal time, and all teachers will monitor student dismissal.
- Teachers must be aware of all students that take school transportation and follow the schedule.

For TK/Kindergarten dismissal, there are two procedures for dismissal.

- Students using the valet system wait for their automobile in a designated area in front of the school while under the supervision of a kindergarten teacher.
- Students not using the valet will be released to parents at the south gate at the multi-purpose room

Students waiting for rides home via automobile need to wait in one of the two designated pickup areas located in front of the school. Regarding this process:

- The speed limit is NO MORE THAN 5 MPH.
- Students need to be ready to enter the car when they arrive in the parking lot.
- Cars should pull all the way forward to allow for more cars to load or unload. Students will walk down the yellow line to their car.
- Cars must exit the valet lane immediately after dropping off/picking up.
- Parents are to place a sign with child's/children's name(s) in the passenger side window. The staff member at the entrance of the valet line will announce the name so the students will get up and be ready to enter the car.
- Only students accompanied by an adult are allowed in the parking lot. The parking lot crosswalk is to be used when crossing the parking lot.
- No one is permitted to walk in the valet traffic lane by the Kindergarten wall (from north parking lot to the south parking lot).
- Cars must be parked in a designated parking space. There is NO PARKING in the valet or drive through lanes.

Students walking home with authorized person wait in one of the four designated areas located in the front of the school. Regarding this process:

- Parents make arrangements to meet TK/Kindergarten students at the multi-purpose room. Parents picking up 1st and 2nd grade students meet at primary valet. Parents picking up 3rd- 6th grade students arrange to meet at

the 500 building gate. Each area has a corresponding school exit.

- No parents are permitted to wait on campus to pick up children.

**CLOSED CAMPUS:** All gates which provide access to classrooms and other rooms, except the main office, remain locked until 3:15 p.m. All visitors to the campus must come through the office to sign in through the Raptor System and obtain a visitor's badge which they must wear for the duration of the time they are on campus.

**LEAVING EARLY:** Students must stay on campus from the time of arrival in the morning, during lunch, and after school while waiting for the bus or to be picked up. Students may leave campus during school hours if parents or guardians or persons designated by parents or guardians come to pick them up from school. A written request from a parent or guardian must be submitted if someone other than the parent or someone on the emergency card is going to pick up a child. Persons picking up students during the school day must sign the student out in the front office. They must be at least 18 years of age and provide a valid ID. Under no circumstances should a student leave campus without permission.

**COMING LATE:** If a student is late to class without an approved reason it is a tardy. If a student is late in the morning, he/she must report to the office for a late slip, and then quickly go to class.

Fair Oaks Ranch Community School Incident Command System

## **Incident Command Team Responsibilities**

### **Standardized Emergency Response Management System Overview**

The California Standardized Emergency Management System (SEMS) is designed to centralize and coordinate emergency response through the use of standardized terminology and processes. This greatly facilitates the flow of information and resources among the agencies participating in response to an emergency. SEMS consists of five functions:

#### **Management**

During an emergency, the Incident Commander directs response actions from a designated Command Post. To effectively do this, the Incident Commander must constantly assess the situation, and develop and implement appropriate strategies. The Incident Commander must be familiar with the available resources, accurately document all response actions, and effectively communicate response strategies to others participating in the response. This function is typically filled by the school principal. The principal is assisted in carrying out this function by a Public Information & Liaison Officer and Safety Officer.

#### **Planning & Intelligence**

Planning and Intelligence involves the use of various methods to efficiently gather information, weigh and document the information for significance, and actively assess the status of the emergency. This understanding and knowledge about the situation at hand is vital to the effective management of a response. These activities are performed by a single person who reports directly to the Incident Commander.

#### **Operations**

All response actions are implemented under by Operations. This includes staff performing first aid, crisis intervention, search and rescue, site security, damage assessment, evacuations, and the release of students.

#### **Logistics**

Logistics supports the response by coordinating personnel; assembling and deploying volunteers; providing supplies, equipment, and services; and facilitating communications among emergency responders.

#### **Finance & Administration**

Finance & Administration involves the purchasing of all necessary materials, tracking financial records, timekeeping for emergency responders, and recovering school records following an emergency. These activities are performed by a single person who reports directly to the Incident Commander.

## **Emergency Response Guidelines**

### **Step One: Identify the Type of Emergency**

It is important to note that school administrators are responsible for the health and safety of students and staff during an emergency. Although the following procedures refer to specific actions, school administrators must exercise discretion in implementing standardized procedures and should consider modifications as necessary to ensure the health and safety of all personnel during an emergency.

These might include: Earthquake, Hazardous materials, Flooding, Fire, Dam Failure, Transportation Incident (Air, Train, Truck), School Disturbance, School Violence, Terrorism, Tsunami, and Public Health Emergency.

### **Step Two: Identify the Level of Emergency**

The Sulphur Springs Union School District emergency response and recovery operations are managed in one of three modes, depending on the magnitude of the emergency/disaster. Principal will identify the initial level with direction from the district.

\*Level 1 is a minor incident that is quickly resolved with internal resources or limited help. The District maintains normal staffing and reporting protocols. At this operational level, the environment will be monitored for changes.

\*Level 2 is a more significant emergency that impacts district buildings and or school sites. For level 2 the Emergency Operations Plan (EOP) will be activated. The Emergency Operations Center (EOC) will be activated but only those functions that are needed to coordinate and support emergency operations will be activated. The EOC Director will determine the magnitude of the emergency and coordinate its resolution or, if the emergency continues to develop, a Level 3 response will be activated. Other key staff may be alerted depending on the nature of the emergency.

\*Level 3 is a disaster that involves the entire District, school sites and the surrounding community. At Level 3, the EOP will be activated, and the entire District emergency management organization is activated.

### **Step Three: Determine the Immediate Response Action**

The staff and students' response to any emergency/disaster is based on an understanding of the nature of the emergency/disaster, the potential hazards, the likely response services and knowledge of what individuals and groups should do to increase their chances of survival and recovery. Immediate action responses may include: Drop, cover, and hold; shelter in place; lock down; campus evacuation; off campus evacuation, and/or all clear.

### **Step Four: Communicate the Appropriate Response Action**

Based on the emergency, the principal would activate members of the Emergency Incident Command System. Depending on the level of Emergency, parent communication is initiated via the ParentSquare system. Significant emergencies are reported by the District.

## **Types of Emergencies & Specific Procedures**

In regards to the Covid-19 Pandemic, please refer to the Sulphur Springs Union School District Covid-19 Safety Plan and Covid-19 Prevention Program found on the district website at [www.sssd.k12.ca.us](http://www.sssd.k12.ca.us).

### **Bus Disaster**

The following procedures are for use by bus drivers and appropriate school administrators in the event of an earthquake, serious bus accident, or other emergency that occurs while students are on a field trip or being transported to or from school.

This section addresses two possible scenarios involving a bus disaster:

(1) Scenario 1 -Earthquake

(2) Scenario 2 - Serious Accident or Bus Fire: It is important to note that drivers may need to make spontaneous, independent decisions based on the nature of the emergency, age of the children, location of the bus, and other unique circumstances to ensure children's safety.

#### **Scenario 1 – Earthquake**

1. Upon first indication of an earthquake, the bus driver should issue Drop, Cover, and Hold procedures to all students on the bus.
2. The bus should be moved away from all power lines, bridges, overpasses, possible landslide conditions, overhanging trees, or other dangerous situations.
3. The bus driver should set the emergency brake, turn off the ignition, and wait for the shaking to stop.
4. The bus driver should check students for any injuries and provide first aid, as appropriate.
5. In the event the bus is disabled, the driver and students should stay in place until help arrives.
6. The bus driver should contact the School Administrator and the District Transportation Manager to report the location and condition of students on the bus.
7. The School Administrator will determine what additional appropriate notifications should be made and will brief the District Superintendent on the situation.
8. If the bus driver is instructed to resume the bus route, the driver should continue to pick students up. Students should only be dropped off if a responsible adult is at the bus stop.
9. If it is impossible to return to school, the bus driver should contact the School Administrator and remain with the children until further instructions are received.
10. The bus driver is responsible for all students who board the bus throughout the emergency.

#### **Scenario 2 – Serious Accident or Bus Fire**

1. The bus driver will park the bus in a safe location with the emergency brake set and the ignition off.
2. In the event of a fire, students and the driver should evacuate the bus immediately and move to a safe location away from the bus and traffic using available barricades (e.g., trees, cars) when available.
3. The bus driver will immediately call 9-1-1 and provide the exact location of the bus and wait for the arrival of emergency response personnel.
4. The bus driver should check students for injuries and provide appropriate first aid.
5. The bus driver should call the School Administrator and the District Transportation Director (refer to the Essential Contacts in the Appendices of this Plan) to report the location and condition of students.
6. The School Administrator will determine what additional appropriate notifications should be made and will brief the District Superintendent on the situation.
7. The bus driver is responsible for accounting for all students throughout the emergency.

## **Disorderly Conduct**

1. Consult with the Sheriff Department and the District to coordinate appropriate protection.
2. Establish a Command Post and an Incident Command System. Notify the Superintendent.
3. Inform teachers and staff of the emergency situation. Initiate a "Hard Lockdown" if required.
4. Do not release staff or students without authorization.

3. Do not use telephones.
4. Implement action, "LEAVE BUILDING", when instructed to do so, after the earthquake is over and tremors have subsided. Special consideration should be given to exit routes as some exits have heavy roof structures over the doorways. Go to an open area away from trees, power poles, solar panels, etc.
5. Avoid touching electrical wires and metal objects such as chain link fences.
6. Render first aid if necessary.
7. Take roll and report missing and injured students to principal/incident commander.

Review California Dashboard	Julie McBride: Principal	<p>Informational</p> <p>Mrs. McBride reviewed the updated school safety plan.</p> <p>Mrs. McBride started with a review of what is in the safety plan from the district, and reviewed each of those pages. Kelly McCormick asked about suspensions, asking if it was true we could not suspend for some actions now. Mrs. McBride explained that the rules for suspension had changed a few years ago around willful defiance. Then, she moved to reviewing the three specific goals.</p> <p>First, she reviewed the actions under Positive School Climate. This included action steps including Capturing Kids Hearts, training for noon supervisors, creating a bully free school environment, and keeping parents and families informed of student behavior expectations. Marcos Ballesteros asked how do we ensure that noon supervisors treat all students fairly, and Mrs. McBride explained that they worked with noon supervisors regularly to talk about how to work with students during recess and lunch.</p> <p>Next, she reviewed the actions under Safe School Environment. This included action steps including</p>

	<p>ensuring the facility is in working order, communicating the comprehensive school safety plan to the community, ensuring a closed campus safe from intruders, preventing unauthorized visitors on campus, and enforcement of valet procedures. Robert Rhoten asked about valet - specifically about the cross walk in front of the office. Mrs. McBride explained that she needed to ensure that the morning duty supervisors need to move to new areas once the teachers leave at 8:40am, so that the crosswalk is still covered. The team also talked about people walking in the valet to get to the front office area. Marcos Ballesteros suggested that the school put up signage that says <i>No pedestrians past this point</i> and possibly redirect foot traffic by having someone stand at that spot.</p> <p>Next, she reviewed the actions under Disaster Preparedness. This included action steps including regularly practicing emergency drills, students knowing what to do in case of an emergency, teachers and staff knowledgeable about their roles in case of an emergency, provide training for staff on their Incident Command Center roles, maintaining classrooms and buildings in accordance with emergency procedures, and ensuring emergency supplies are updated every year.</p> <p>Mrs. McBride reviewed the California Dashboard results. She explained that this was the first year since the pandemic that we have had test results</p>

Mrs. McBride specifically pointed out where some sub groups are out performing other sub groups by a significant margin. Robert Rhoten asked how do we fix this and improve the sub groups performance.
